## 10 CAREER SERVICES GOALS FOR FRESHMAN YEAR

To help you get, and stay, on track for career success we've set some goals for your first year. You'll have lots of support from our office and the entire campus community to help you meet them.

- Find out how to use the multitude of resources and services through Career Services and our website
- Get to know - and be known by - three or more faculty or staff
- Start practicing professional etiquette, including reading your Morrisville e-mail daily
- Create a college-level résumé (no, it's not just an update of your high school one!)
- Join a club or student chapter of a professional organization
- Attend a career-related program such as our how-to workshops, Networking & Recruitment Series speaker, or Job & Internship Expo
- Begin defining or refining your post-Morrisville career plans
- Get familiar with CCN-Morrisville, our on-line jobs and internships database for employers specifically seeking MSC talent
- Learn how to do a summer job or internship search
- Start building your professional network and your interviewing wardrobe (you never know when you'll need it!)

To connect with us and our resources:

- Meet with us for a 1/1 meeting. You don't need to know what you want to do before you come - or what to talk about - it's our job to help you figure that out!
- Read your "This week in Career Services" e-newsletter to find out about workshops, guest speakers, and special events
- Visit our website at [www.morrisville.edu/careerservices](http://www.morrisville.edu/careerservices)
- Stop by 318-319 Crawford Hall to introduce yourself and check out our Resource Center

We look forward to seeing you early and often!

318-319 Crawford Hall | [www.morrisville.edu/careerservices](http://www.morrisville.edu/careerservices)
