In an effort to provide Morrisville State College students with an opportunity for a Master in Business Administration, an articulation agreement has been formed between Morrisville State College and the State University of New York (SUNY) Oswego. Its purpose is to afford students the ability to pre-plan their undergraduate program to include courses that serve as a foundation for graduate study in business at SUNY Oswego. These foundation courses include material required in the first year of study in the Master of Business Administration (MBA) program at SUNY Oswego. Students who plan their undergraduate program carefully are able to earn an undergraduate degree from Morrisville State College and an MBA degree from SUNY Oswego in five years. If necessary, any remaining foundation courses may be taken at SUNY Oswego in the beginning of their MBA program.

FOUNDATION COURSES
SUNY Oswego will accept the Morrisville State College courses outlined in this document as appropriate preparation for entrance into SUNY Oswego’s MBA program.
