Morrisville State College offers 12 bachelor degrees and a wide variety of associate degrees and options. Considered to be one of the most technologically advanced colleges in the nation for its ThinkPad University program and wireless technology initiative, the college recently became the first in the nation to comprehensively replace landlines in residence halls with individual cellular phones.

Morrisville State College was also chosen as one of the top five colleges in the nation for campus activities by Campus Activities magazine.

Professional and Transfer Opportunities

The options for students entering transfer degree programs at Morrisville State College are as diverse as its student body; some have chosen to pursue degrees in education to become teachers, while others study psychology, history, social work, English, criminal justice, political science and other fields. Students have excellent transfer opportunities both within the State University of New York (SUNY) system and to private colleges and universities.

Morrisville State College offers articulation agreements with teacher education programs in New York state so that students leaving Morrisville State College can continue their education at the junior level.

**Academic Success**

Morrisville State College is a great place to begin your academic career in a wide variety of academic programs. The liberal arts and sciences—social science and humanities associate in arts (A.A.) and liberal arts and sciences—mathematics and science associates in science (A.S.) degree programs at Morrisville State College are designed to give students a solid foundation in English, psychology, history, biology, chemistry, physics and more. Generally, the intention of students in these majors is to complete their associate degree and then go on to further coursework in a related area to earn a bachelor of arts or bachelor of science degree. The great flexibility within these programs permits students to work closely with faculty to tailor the program to meet their individual interests. The program benefits students who are curious about the world, science, history, people, organizations and themselves. Morrisville State College’s teacher education—transfer programs allow students to transfer to teacher education programs in early childhood, childhood and adolescence education to ultimately earn their New York state teaching certificate.

---

**Facilities**

Morrisville State College is committed to keeping students on the cutting edge of higher education, providing them with unique facilities and innovative technology as well as small class sizes and dedicated faculty whose primary responsibilities are teaching and working directly with students. Morrisville graduates leave college with the confidence that they are prepared to pursue further study or enter the workforce with the knowledge necessary to succeed.

Often, students with interest in the liberal arts and sciences have a variety of other interests, including clubs, music, drama and athletics. Morrisville State College is an exceptional choice for these students, providing them with:

- More than 30 active clubs and organizations
- Yearly dramatic and musical productions
- 16 intercollegiate athletic teams
- Radio and Internet broadcast facility

The Morrisville campus also contains a variety of natural science laboratories and other unique facilities, including an arboretum, computer labs, an extensive library, and more.

*The New York Times* has called Morrisville a “college at the forefront of a technological revolution.” As a part of its most recent technology initiative, Morrisville replaced all of the college’s residence hall telephones with individual cellular phones for resident students.

As an IBM ThinkPad University, Morrisville State College has made a commitment to the integration of technology into the teaching and learning environment. Every student enrolled in an academic program which is designated a ThinkPad University program will use the IBM wireless-equipped laptop as an integral part of their academic experience.
