

The Right Choice

At Morrisville State College, the total college experience should be a balance of activities both in and out of the classroom. For many people, sports are as much a part of college as academics. Morrisville State College offers the opportunity for students to get involved in a variety of intercollegiate and intramural athletics.

An institutional commitment to athletics has made Morrisville State College's athletic program one of the finest, offering state-of-the-art equipment and facilities coupled with outstanding coaches and trainers.

An Intercollegiate Athletic Board, a governing body comprised of students, faculty and staff members, ensures the viability of intercollegiate teams and administers a healthy budget for each sport.

The athletes who wear green and white for the Morrisville Mustangs are part of a proud tradition of team competition and enjoy a school spirit that fosters a dedicated following of spectators to the stands for athletic contests. Morrisville State College athletes and coaches are committed to a tradition of athletic excellence.

Environmental Impact Statement
Morrisville State College's products and practices reflect commitment to sustaining natural resources. This project was manufactured with 1057.69 lbs of 25% postconsumer recycled paper and wind-generated electricity to conserve resources and reduce emissions.

- ♻️ 2 trees preserved for the future
 - 💧 6 lbs waterborne waste not created
 - 🚰 944 gallons wastewater flow saved
- In other words, savings from the use of wind-generated electricity are equivalent to:
- 🚗 not driving 1,151 miles or
 - 🌲 planting 79 trees

Primary values were derived from information publicly available at: www.epa.gov/cleanrg/egrid/index.htm and www.environmentaldefense.org/documents/1687_figures.pdf.

Varsity Athletics

Morrisville State College, a residential college located approximately 30 miles between the cities of Syracuse and Utica, in Central New York, offers the total college experience. Athletics are an integral part of the education and personal development of all students. The college allows students to experience the availability of a balance of activities both in and out of the classroom.

Student-athletes have contributed to the long-standing success as an institution and have brought home a number of regional and national titles with many of the college's student-athletes selected for post-season honors and named All-Americans.

Commitment to providing a comprehensive program is evident in the educational support provided to student-athletes while outstanding facilities and equipment, along with a dedicated staff of coaches and trainers who act as mentors, are among the

top reason student-athletes choose Morrisville State College.

Aside from demanding success on the field, coaches and athletic staff help students maintain successful academic careers. To help maintain success on and off the field, tutoring is available in a variety of subject areas and offers both peer and professional tutoring at no cost in the Academic Enrichment Center.

Morrisville State College forged a tradition as a member of the National Collegiate Association (NCAA), Division III beginning in the fall of 2006. Beginning in fall 2009, Morrisville will be eligible to participate in NCAA championships.

Administering 16 intercollegiate athletic teams and a full schedule of intramural athletic opportunities, students have a variety to choose from.

Athletic Facilities

A variety of excellent athletic facilities designed to cultivate physical achievement and well-being, both among intercollegiate athletes and the campus community, are available at Morrisville State College. In addition to intercollegiate sports, the college provides the opportunity for all students to get involved through intramural sports and activities. Our comprehensive, year-long program of on-campus intramural sports includes many leagues, tournaments and special events that are available to all students regardless of athletic ability. Open athletic recreation time is scheduled weekly.

John W. Stewart Center for Student Activities (STUAC)
STUAC houses the main gymnasium (a second gymnasium is housed in Hamilton Hall), a state-of-the-art fitness center, coaching offices, training room and additional men's and women's locker rooms.

Renovations, completed in the summer of 2006, brought a new food court and lounge to the student center to better serve the campus community.

Fitness Center
Located on the lower level of STUAC, the fitness center currently features a variety of

weight training machines, treadmills, steppers, elliptical trainers and other aerobic machines and a hardwood aerobics room.

IcePlex
The Morrisville State College IcePlex houses two regulation-sized rinks and serves as home ice for the men's ice hockey team. Several community organizations also call the IcePlex home. Within the twin-rink complex are classrooms that provide hands-on training, a first-aid room, 11 locker rooms, offices, a game room, pizza and sub shop, and a pro shop. The IcePlex hosts hockey tournaments and hockey camps as well as ice skating shows by the IcePlex Figure Skating Club.

Recreation Center
The college's recreation center brings an artificial surfaced field house to the campus and serves as an invaluable resource for all the college's field-based teams for the playing season. Featuring an athletic training room, a laundry and equipment room, wrestling room, locker rooms for men and women and several athletic department staff and support offices, the recreation center also provides an indoor 200-meter track.

Athletic Training Room
Full-time athletic trainers are available to athletes for care and prevention of athletic injuries. The athletic training room in the recreation center serves athletes' daily needs as well as rehabilitative needs following injury, and is equipped with a variety of whirlpools and strength equipment and machines. An orthopedic doctor reports to campus once a week to evaluate athletes' injuries.

Athletic Stadium
Morrisville State College athletics is kicking off an exciting season as construction is under way on a new multipurpose stadium. This new facility will enhance the intercollegiate athletic program at MSC, and will also be used for intramural events. It will be an immense resource for the community and area high school athletic teams looking for a synthetic turf facility, as Morrisville State College will host many post-season events at the high school and collegiate levels.

Outdoor Facilities
The college's outdoor facilities include a synthetic 400-meter track, six outdoor tennis courts and athletic fields for football, field hockey, soccer, lacrosse and softball.

Visit Us

For more information about teams, updates, coaches, schedules and rosters, visit the Web site at www.morrisville.edu and click on athletics. Admissions interviews and tours are offered weekdays at 9:15 a.m. and 1:15 p.m. and on select Saturdays throughout the year.
