

Welcome to Morrisville State College

Morrisville State College is not your typical college. A unique mix of academic programs provides for a dynamic learning environment that attracts a variety of students, faculty and staff. The result is a culturally and intellectually diverse campus where students and facilitators are engaged in a great range of learning activities both in and out of the traditional classroom. Morrisville State College offers students a place not only to learn, but also to learn how to apply their acquired knowledge in order to succeed after graduation.

The village of Morrisville, home to MSC, is located in Central New York, about 30 miles from both Syracuse and Utica. Morrisville is a small town, however a bus on a major route arrives and departs campus twice each day. The campus is situated on 150 acres of land with more than 48 buildings, several athletic fields and 1,000 acres of college-managed farm and woodland. The college is accredited by the Middle States Association of Colleges and Schools.

Academic Programs

Bachelor Degrees

Agricultural Business Development* (B.B.A.)
 Automotive Technology: Technology Management* (B.B.A.)
 Automotive Technology** (B.T.)
 Dairy Management* (B.T.)
 Entrepreneurship and Small Business Management* (B.B.A.)
 Equine Science* (B.T.)
 Horticulture Business Management (B.T.)
 Human Performance and Health Promotion (B.S.)
 Information Technology:
 Technology Management* (B.B.A.)
 Information Technology (B.T.)-Application Software Development*
 Information Technology (B.T.)-Electronic Marketing & Publishing*
 Information Technology (B.T.)-End-User Support*
 Information Technology (B.T.)-Network Administration*
 Information Technology (B.T.)-Web Development*
 Nursing (B.S.)
 Renewable Resources Technology (B.T.)
 Resort and Recreation Service Management: Technology Management* (B.B.A.)
 Science, Technology and Society (B.S.)

Associate Degrees

Accounting* (N)
 Accounting* (A.S.) (N)
 Agricultural Business*
 Agricultural Engineering*
 Agricultural Mechanics* (A.O.S.)
 Agricultural Mechanics (one-year certificate)
 Agricultural Science* (Agriculture Technology, Agronomy, Animal Science, General Transfer concentrations)
 Animal Science - Dairy*
 Aquaculture and Aquatic Science*
 Architectural Studies and Design* (A.S.)
 Automotive Technology (General or Ford ASSET option)
 Business Administration* (N)
 Business Administration* (A.S.) (N)
 Casino Careers Professional Development (one-year certificate)
 Computer Information Systems* (N)
 Computer Information Systems* (A.S.) (N)
 Computer Science (A.S.)*
 Computer Systems Technology* (N)
 Criminal Justice † (N)
 Design and Drafting Technology*
 Diesel Equipment Technology*
 Diesel Technology* (A.O.S.)
 Dietetic Technician*
 Early Childhood † (N)
 Electrical Engineering Technology*
 Engineering Science* (A.S.)
 Environmental & Natural Resource Conservation (A.S.)
 Equine Racing Management*
 Equine Science & Management*
 Food Service Administration*
 Gaming & Casino Management*
 Health-Related Studies
 Horticulture (Floral Design, General Transfer, Horticulture Production, Landscape Development and Management concentrations)
 Human Services † (N)
 Individual Studies (A.A., A.S., A.A.S.) (N)*
 Journalism Technology*
 Landscape Architectural Studies (A.S.)
 Liberal Arts and Sciences: Humanities and Social Science (A.A.) (N)
 Liberal Arts and Sciences: Math and Science (A.A.)
 Liberal Arts and Sciences: Teacher Education Transfer--Childhood (A.A., A.S.)
 Liberal Arts and Sciences: Teacher Education Transfer--Early Childhood (A.A. A.S.)
 Liberal Arts and Sciences: Teacher Education Transfer--Adolescence (A.A. A.S.)
 Massage Therapy
 Mechanical Engineering Technology*
 Natural Resources Conservation (concentrations in Environmental Conservation)
 Nursing (first year also offered at Norwich Campus)
 Office Technology/Information Processing* (N)
 Office Administration: Management* (N)
 Office Administration* (N)
 Residential Construction*
 Restaurant Management*
 Sports, Nutrition and Fitness Management
 Travel & Tourism/
 Hospitality Management*
 Wood Products Technology* (Finish Carpentry, Furniture Production and Business)
 Word Processing (one-year certificate)

Note: Unless otherwise noted, upon completion of coursework, students will receive an associate in applied science (A.A.S.) degree.

* ThinkPad University curriculum

** ThinkPad University curriculum in third and fourth years

† Available at the Norwich Campus only

(N) Programs offered at Norwich campus

Did you know

Morrisville State College :

- Has its own full-service travel agency, staffed by professionals and supported by students in the college's hospitality program?
- Has developed Nelson Farms, a small-scale food processing facility which already has approximately 50 clients?
- Has an IcePlex, a twin-rink facility home to the Mustangs hockey team, several high school hockey teams, club hockey organizations and many community programs?
- Opened a full-service restaurant, the Copper Turret, in the village of Morrisville in the winter of 2006? The facility runs in conjunction with MSC's hospitality academic programs, including food service administration, restaurant management and travel and tourism students.
- Hosts annual equine, dairy cattle and fish sales, with equine sales consistently topping \$2 million?
- Operates Spader Floral, an on-campus flower shop where students grow flowers, vegetables and plants for market to the local community?
- Has a Norwich Campus in Norwich, N.Y.; an \$8 million facility reflecting the use of state-of-the-art technology in academics?
- Founded the Morrisville State College Entrepreneurship Institute (MSCEI), a non-profit organization dedicated to enhancing the relationship between students and businesses?

Alternative Energy

Biodiesel Initiative

In 2007, the college received funding from New York state to create the New York Center for Liquid Biofuels, whose mission is to conduct research and development in biofuels with the ultimate goal of creating a statewide biodiesel industry.

Morrisville State College will conduct research on new feedstocks for biodiesel (including algae), uses for by-products and use in locomotive engines.

Anaerobic Methane Digester

The college also features a 55 Kw methane digester, located at its dairy complex. The digester system treats manure from 350 milking cows and provides power to the campus by collecting waste and capturing methane to produce power.

The digester also functions as a research site and teaching tool both for Morrisville State College faculty and students, Cornell University faculty and students, and working farmers in New York state.

10 Kw Wind Turbine

In 2003, Morrisville State College installed a 10 Kw wind turbine at its dairy complex. Power generated by the turbine reduces energy costs at the complex by an average of \$700 per month. In addition, the wind turbine is used as a real-world laboratory for students in agricultural science, agricultural engineering and renewable resources technology degree programs.

Campus Life

There are a variety of places of interest to visit on campus, including and outdoor arboretum housing a variety of plant species, fitness center, observatory for viewing the stars, a walking trail and wildlife museum. Because of the diversity of the college's academic programs, many facilities such as the aquaculture center and wood products technology building also provide points of interest.

Morrisville State College's 16 athletic teams participate in NCAA Division III. In keeping with that spirit, coaching staff members at Morrisville recognize the importance of academic success and support their athletes on and off the field.

There are more than 40 clubs and organizations at Morrisville State College which encompass many specific interests and career objectives. Involvement in activities outside the classroom enhances the college experience by challenging students to make decisions, solve problems and achieve personal and professional goals.

Living with Technology

The New York Times called Morrisville "a college at the forefront of a technological revolution." Morrisville State College is considered one of the most technologically advanced colleges in the nation. IBM ThinkPad computers are integrated into the way students work, learn and live. The college is a wireless campus and transmitters allow access to the Internet and campus network from any location on campus. Recently, the college became the first in the nation to replace phones in residence halls with individual cellular phones for resident students. Students who live on campus can also access Ruckus, a music and information sharing service. The college is currently implementing the fastest wireless network connection in the world, using 802.11n technology. The Academic Support Center provides free access to technology and free tutoring for all interested students.

Furthermore

- MSC is home to more than 3,000 students.
- The college is a residential campus with 11 residence halls.
- The college's athletic programs participate in NCAA Division III. Students may use either of the college's two gymnasiums, the fitness center, indoor swimming pool, IcePlex or Recreation Center. Outdoor athletic facilities include softball, baseball, football and soccer fields, as well as both indoor and outdoor tracks.
- We offer more than 40 active clubs and organizations.
- More than 80 percent of students receive financial aid and MSC has one of the largest merit-based scholarship and financial aid programs in the SUNY system.
