

## **Renewable Energy Training Center**

### ***Morrisville State College***

*Initial funding (April 2008-Sept. 2011) for the RETC was provided by a grant awarded under the President's Community-Based Job Training (CBJT) Grants, as implemented by the U.S. Department of Labor's Employment and Training Administration.*

*There is no longer funding available through USDOL CBJT for RETC scholarships. However, we will continue to provide affordable training through the RETC. Please visit our [Events page](#) for upcoming renewable energy training opportunities, as well as our [RE college degree and course offerings](#) at Morrisville State College.*
