In a collaborative effort, Morrisville State College and SUNYIT have formed an articulation agreement that allows students the opportunity to plan their undergraduate program to include courses that serve as a foundation for the MBA program at SUNYIT. These foundation courses include material required in the first year of study in the Master of Business Administration (MBA) Technology Management program at SUNYIT. Students who plan their undergraduate program carefully are able to earn an undergraduate degree from Morrisville State College and an MBA degree from SUNYIT in five years.

Eligibility for Admission

Morrisville State College students must earn a BBA in Business Administration with a cumulative GPA of 3.0 or higher, earn a minimum score of 450 on the Graduate Management Admissions Test (GMAT), and complete the 5 required core foundation courses to be eligible for admission into the MBA program at SUNYIT.

Foundation Courses

<table>
<thead>
