

## Summary of outcomes for 2017/18 graduates from SUNY Morrisville

Prepared by Barbara Roback, Career Planning and Development Officer (x6615)

Following is the summary of where 2017/18 certified graduates\* continued their education or worked within nine months of their respective graduation dates. Associate and bachelor graduates for August 2017, December 2017, and May 2018 were included in our data collection.

A knowledge rate of 70.6% was achieved, with much of the information received directly from graduates in a survey taken at the time of their graduation and in in-person or e-mail follow up. Information was also secured from our National Student Clearinghouse records and on-campus parties including faculty, administrative advisors, athletic coaches, on-campus employers, and school secretaries. Outcomes were also identified using LinkedIn and Facebook; information from the latter was reviewed for validity by faculty before being included.

In addition to New York state, our 2017/18 graduates are working and studying in 17 other states.
