

Summary of outcomes for 2018/19 graduates from SUNY Morrisville

Prepared by Barbara Roback, Career Planning and Development Officer (x6615)

Following is the summary of where 2018/19 certified graduates* were employed or continued their education between their respective graduation dates and December 31, 2019. Associate and bachelor graduates for August 2018, December 2018, and May 2019 were included in our data collection.

A knowledge rate of 66.3% was achieved. Data was collected in accordance with standards of the National Association of Colleges and Employers (NACE). Outcomes were collected through multiple channels, with information reported directly from graduates in an at-graduation survey or in subsequent in-person or e-mail follow up; reported from on-campus parties including faculty, administrative advisors, athletic coaches, on-campus employers, and school offices; identified from National Student Clearinghouse reports and college enrollment records; and secured from graduate LinkedIn and Facebook accounts, information from the latter was reviewed for validity by faculty before being included.

In addition to New York state, our 2018/19 graduates are working and studying in 26 other states and four foreign countries.
