Campus Climate Survey

The SVP survey is administered every other year by all SUNY campuses, who work closely with SUNY System Administration to coordinate the survey administration itself. An effort is made to keep the questions from one administration to the next as consistent as possible to allow for reliable and meaningful longitudinal data. System-wide IRB review takes place for each survey administration.

Executive Summary

In March 2023, our campus began an online administration of the Sexual Violence Prevalence (SVP) Campus Climate Survey. This survey was administered to students and employees and is required to address, at minimum, student, and employee knowledge about:

- The Title IX Coordinator’s role;
- Campus policies and procedures addressing sexual assault;
- How and where to report sexual violence as a victim/survivor or witness;
- The availability of resources on and off campus, such as counseling, health, academic assistance;
- The prevalence of victimization and perpetration of sexual assault, domestic violence, dating violence, and stalking on and off campus during a set time period (for example, the last two years);
- Bystander attitudes and behavior;
- Whether victims/survivors reported to the College/University and/or police, and reasons why they did or did not report.
- The general awareness of the difference, if any, between the institution’s policies and the penal law; and
- The general awareness of the definition of affirmative consent.

In reviewing the results, we found that:

Students are generally aware of the relevant campus support services available to them.

Our community members are aware of campus sexual and interpersonal violence related policies and resources.

There is less awareness of the role of the Title Coordinators role on campus than expected.

Employees and students are generally aware of the policies and laws, and of the available resources; however, continual education, outreach, and follow-up are needed to provide up-to-date information to all in regard to policies and laws, and to available resources.

71.8% of Faculty/Staff knew how to contact the Title IX Coordinator, versus only 45.3% of students.

Over 75% of Faculty/Staff indicated that they received information regarding sexual assault, reporting, confidentiality, and policy. However, only 58.2% of students indicated that they received this information.
59.6% of SUNY Morrisville students indicated that they knew how to report incidents of sexual assault, sexual harassment, domestic violence, and stalking. This is nearly 10% higher than the SUNY wide total of 49.7%.

Overall, the most common entity that students as well as Faculty/Staff indicated that they would report an incident of sexual harassment, sexual violence, domestic violence, or stalking was to University Police.

SUNY Morrisville, working with SUNY and community colleagues (including students, faculty, and staff), will use these data to improve response to violence, develop prevention programs, and will continue to study the issue. The next SVP Campus Climate Survey will be administered in Spring 2023.

**Background**

The SVP survey is administered every other year by all SUNY campuses, who work closely with SUNY System Administration to coordinate the survey administration itself. An effort is made to keep the questions from one administration to the next as consistent as possible to allow for reliable and meaningful longitudinal data. System-wide IRB review takes place for each survey administration.

Our campus administered the student survey and the employee survey between 3/22/23 and 4/12/23. Excluded survey populations were individuals under 18 years of age, all incarcerated individuals regardless of age, and all students concurrently enrolled in high school regardless of age. We sent an email to all members of our community and did not provide any incentives for participation, which may have resulted in a lower-than-expected engagement rate (11.1%). Our IR staff member sent emails regarding the survey as well as provided flyers and information in our Digest.

Our survey results will be used by our Title IX Coordinator and our Title IX group to identify areas for improvement. They will collaborate with University Police, Counseling Staff, Human Resources, and Residence Life in order to provide a holistic approach to increasing knowledge and outreach. We will be using this information to plan our future educational materials as well as improve our communication to students, faculty, and staff to increase our impact and effectiveness.

</table>

Of our student respondents, 30.1% were athletes, as compared with 19.1% from other institutions in our sector.

The makeup of our employee respondents was 43% faculty, 56.1% staff/administrator and 51% have been at the college for over 11 years. When compared to the tech sector response rates, more of our staff, and less of our faculty responded to the survey. However, our rates were comparable to the larger SUNY system as a whole with only slight deviations. Not shown in the table, female students were nearly
twice as likely to respond to this survey with a total 14.7% response rate, compared to male students who had a 7.8% response rate.

For more information split into thematic areas, please see the chart below for specific results.

### To whom can a victim/survivor or witness formally disclose a sexual assault on campus? 77.5% indicated that they could report to the counseling center. 75.0% indicated that they could report to the health center. 72.9% indicated that they could report to the Title IX Coordinator.

### Student Incidents

For the most recent disclosed incident, did you report the disclosure to the Title IX Coordinator, Campus Police/public Safety, Student Affairs, or another office on campus? 73.9% indicated that they did report the disclosure.

To which office(s) did you report the most recent disclosed incident? 70.6% indicated University Police. 52.9% indicated Title IX Coordinator.

### Unwanted Sexual Comments

Did you take any action after this experience/s? 66.7% indicated no action taken.
91.1% indicated that they could report to University or Public Police
Only 44.3% indicated that they could report to Student Affairs.

Resources
Please indicate your awareness of the following on-campus and community resources. Lists several resources including Health Services, Counseling Center, etc.
88.1% indicated that they were aware of University Police or Public Safety.
75.4% indicated that they were aware of Campus Health Services through the Health Center.
57.9% indicated that they were aware of local health services including hospitals.

The prevalence of victimization and perpetration of sexual assault, domestic violence, dating violence, and stalking on and off campus during a set time period (for example, the last two years)

Incidents DB
During the last year, have you experience any of the following...
19.4% indicated yes, they experienced unwanted sexual comments, sexual slurs, or demeaning jokes. The SUNY wide average was 25.5%.
14.5% indicated yes, they experienced unwanted sexually suggestive digital communications in either words or images. The SUNY wide average was 17.7%.
During the last year, has someone....
7.3% indicated yes, they were fondled, kissed, or touched in private areas without their consent. The SUNY average was 9%.

Domestic Partner
In the last year, has an intimate partner...
6.6% indicated that a partner tried to control them in the past year.
5.8% indicated that a partner scratched, slapped, hit, kicked, punched, or physically harmed them.

Student Incidents
During the last year, have any students disclosed to you that they were a victim of an unwanted sexual experience, domestic violence, dating violence, or stalking, regardless of where such incident is reported to have occurred?
11.6% indicated yes.
3% indicated prefer not to respond.
85.4% indicated no.

Unwanted Sexual Comments
During the last year, have you experienced unwanted sexual comments, sexual slurs, or demeaning jokes?
88.4% indicated no.

Unwanted Digital Communications
During the last year, have you received unwanted sexually suggestive digital communications, either words or images or both, including emails, texts, social medial communications, or in letters or written communications?
At least 93.2% of full-time permanent, full-time NOT permanent, and part-time employees indicated that they have not received unwanted sexually suggestive digital communication including emails, texts, social media communication, etc.

Bystander attitudes and behavior

Incidents – Tell
Did any of the following thoughts or concerns cross your mind when you decided not to report or otherwise share your experience?
50.0% indicated that they didn’t think it was important enough.
42.9% didn’t recognize it as sexual assault at the time and did not want to deal with it.

Readiness to help
The following items relate to your understanding of a fellow employee’s willingness to help if they become aware of an incident. You may interpret the phrase “do something” to mean acting in some way, such as asking for help, creating a distraction, or talking directly.
91% indicated agree/strongly agree that the college would take a report seriously if they
### Student College Response
If you or a friend filed a formal complaint of sexual violence on your campus, do you think your college would...?

A combined 63.9% of students said they think Morrisville would conduct a fair investigation. With 30.3% indicating that they don’t agree or disagree. This is nearly identical to the results for the total SUNY system.

74.5% agree/strongly agree that the college would take the report seriously. 63.9% agree/strongly agree that the college would provide the student with necessary support during the process.

### Whether victims/survivors reported to the College/University and/or police, and reasons why they did or did not report.

<table>
<thead>

<tbody>
<tr>
<td></td>
<td>84.1% indicated yes.</td>
</tr>
</tbody>
</table>

Can someone who is incapacitated provide consent? 95.3% indicated no.

### Discussion and next steps
SUNY Morrisville’s next steps include community education for both students as well as Faculty/Staff, outreach by the Title IX Coordinator, and more frequent communication about where to report incidents of sexual harassment, domestic violence, stalking, and sexual assault.

We will work with internal and external stakeholders to better educate and inform our community of the many policies and resources available. So far, we have already begun event planning to increase awareness about topics such as domestic violence, as well as joining first-year experience (FYE) classes to help educate our students on these important issues. We have begun work to create informational handouts and posters to hang around campus to cover topics of reporting these types of incidents, definitions of consent and sexual harassment, resources available to SUNY Morrisville students as well as Faculty/Staff, and much more.
