

Summary of outcomes for 2015/16 graduates for Morrisville State College

Prepared by the Office of Career Services

Following is the summary of where our 2015/16 graduates worked or continued their education within 12 months of their respective graduation dates. Associate and bachelor graduates for August 2015, December 2015, and May 2016 were included in our data collection.

A knowledge rate of 65.9% was achieved, with the majority of the information received directly from graduates in a survey taken at the time of their graduation and in in-person or e-mail follow up. Information was also secured from our College enrollment records and on-campus parties including faculty, administrative advisors, athletic coaches, residence directors, on-campus employers, and school secretaries. Outcomes were also identified using LinkedIn and Facebook; information from the latter was reviewed for validity by faculty before being included.

In addition to New York State, our 2015/16 graduates are working and studying in 15 states and Canada.

	Number	Percentage
All 2015/16 graduates		
Total graduates	684	
Known outcomes (knowledge rate)	449	65.6%
